Taoufik Medouany

Full-Stack Web Developer · taoufikmedouany@gmail.com · +212 628 594 530

Profile

Full-Stack Web Developer with 7 years of experience, including 4+ in employment, designing, building and shipping scalable web applications, CRMs and e-commerce platforms — from the database schema through to the user interface (PHP/Laravel, Vue.js, Nuxt, Tailwind CSS). Experienced working within multinational teams, migrating legacy applications to modern architectures, and delivering freelance projects. Currently pursuing a Master's in Data Science and Information Systems Security.

Professional Experience

Just Digit It — Belgium (remote)
Full-Stack Developer — Mar 2024–Present

- Designed and deployed web applications using Laravel, Vue.js and Nuxt.
- Integrated and customised Odoo — built custom modules and connectors to synchronise business processes.
- Built APIs and database architectures with PHP/Laravel and MySQL.
- Integrated third-party APIs and payment gateways (Mollie).
- Deployed and administered applications on DigitalOcean servers.
- Client projects delivered: Coach Belgium, Febelhair Business Academy and Nounce.io — end to end, from architecture to production deployment.

Oggvo — Marrakesh, Morocco
Full-Stack Developer — Jun 2022–Feb 2024

- Built backend features with PHP/CodeIgniter and handled data modelling in MySQL.
- Developed dynamic interfaces with Vue.js and Nuxt.js, styled with Tailwind CSS.
- Owned API integration and application performance optimisation.

Atlas Web Solutions — Marrakesh, Morocco
Full-Stack Web Developer — Jan 2022–Mar 2022

- Migrated a WordPress application to PHP/Laravel and MySQL.
- Rebuilt the backend from the ground up to improve scalability and performance.

Fiverr — Remote
Freelance Web Developer — Jul 2019–Dec 2021

- Converted PSD and Figma files into responsive HTML and CSS pages.
- Fixed bugs across web technologies (PHP, Laravel, JavaScript, Vue.js).
- Built websites and web applications with PHP and Laravel.

Online — Remote
Web Development Instructor — 2024

- Delivered 44 h of practical online courses (HTML/CSS/JS, 20 h; PHP/MySQL, 24 h) via Google Meet.

Internships

Presidency of Sultan Moulay Slimane University — Béni Mellal, Morocco
Software Development Intern — Jul 2019–Oct 2019

- Built an enrolment platform, a student records system and an AMO health insurance portal — Laravel, PHP, MySQL, Bootstrap 4, jQuery, Chart.js. Live: usms.ac.ma/apps/amo.

GM-Soft Béni Mellal, Morocco
Web Development Intern Jul 2017–Sep 2017

- Built an online parapharmacy shop (Prestashop) and a sales management system — PHP, MySQL, Bootstrap 3, JavaScript (AJAX, JSON).

Projects

- **Coach Belgium** — Bilingual training-centre platform (hairdressing, esthetics, fitness): member portal, multi-site course management, enrolment, waitlists, Mollie payments, employer invoicing, PDF certificate generation. `Laravel, MySQL, Filament`
- **Nounce.io** — SaaS platform for digital prescriptions: professionals build personalised product recommendations for clients and share them instantly. `Laravel, MySQL, Vue.js, Inertia.js, Redis`
- **Febelhair Business Academy** — Multilingual training catalogue for the Belgian Hairdressing Federation: browse and book courses, cart, Mollie payments, admin back-office. `Laravel, MySQL, Vue.js`
- **E-Cabinet** — SPA for running a physiotherapy centre: patient management, appointments, medical records and consultation tracking. `Laravel, MySQL, Vue.js`
- **Flags Quiz with AI** — Mobile quiz game for mastering the world's flags, with an AI-powered assistant. `Vue.js, Capacitor`
- **Simple Note** — PWA inspired by Google Keep for saving and managing notes. `Vue.js, Nuxt.js, Tailwind CSS, PouchDB`

Skills

Technical Skills
